Subject: FW: Aquila Wetland Permit App with K. Wilson Comments
[removed.txt](#)

As we discussed in yesterday's pre-application meeting, I had made a number of comments on the draft application that were more specific than what we tend to provide in a follow-up pre-application letter. I offered to provide Foth with a copy of the document with my comments as a follow-up to a substantial portion of our discussion on the draft application. After our meeting, I added a number of comments to this document from my meeting notes.

Foth has provided a sharefile link for this document, which can be accessed below. If you are interested in a copy of the draft application with my comments and comments from our discussion you can download it from their sharefile. I am unsure of how long the link will be active.

If you have any items that you would like to add to our follow-up pre-application letter, I will be drafting that document to be sent out early next week. Please feel free to send me any comments to be included in that letter.

Kristi Wilson
